OBJECTIVE

Motivated Computer Science Engineering student specializing in Artificial Intelligence and Machine Learning, currently in the 6th semester, seeking an opportunity to apply technical knowledge, develop practical skills, and contribute to innovative technology solutions.

EDUCATION

Kalasalingam Academy Of Research And Education	2023-2027
CGPA:8.88	
Aavishkar Jr collage,Hyderabad	2021-2023
Marks:944	
Sri chaitanya ,siddipet	2020-2021
GPA:10	

PROJECTS

AI-Resume Analyzer

- Developed an AI Resume Analyzer that evaluates resumes and provides feedback on skills, keywords, and overall resume quality.
- Built the web application using React and Node.js, integrating AI-based text analysis to suggest improvements for better job matching.

Fake News Detection using Machine Learning

- Fake News Detection using Machine Learning
- Developed a Fake News Detection system that classifies news articles as real or fake using machine learning techniques.
- Implemented text preprocessing and model training using Python and Scikit-learn.

Anemia Detection Web Application

- Developed an Anemia Detection System using machine learning to predict anemia from inner eyelid and nail images along with health symptoms.
- Built a web application using React, Vite, and Node.js, integrating a trained model to provide anemia risk prediction and diet recommendations.

TECHNICAL SKILLS

Programming skills : Java, python(basics),HTML,CSS

Developer Tools : Vscode, Github ,Antigravity

Operating System : Windows

SOFT SKILLS

- Adaptable and able to intreact quickly with new environments.
- Work efficiently with team members on projects

LANGUAGES

- English
- Telugu

I hearby declare that the information provided above is true and correct to best of my knowledge.
