EXPERIENCE

Technical Volunteer

Aug. 2025 – Present

IEEE Computer Society, Kalasalingam Academy of Research and Education

Srivilliputhur, Tamil Nadu

- Organized technical events, workshops, and coding activities
- Coordinated registrations and event logistics for IEEE programs
- Participated in hackathons, contributing to real-world problem solving and rapid prototyping
- Applied Java, Python, and SQL to build and optimize solutions, with exposure to Machine Learning fundamentals

Freelance Web Developer

May 2024 – Present

Self-Employed

Chennai, Tamil Nadu

- Developed responsive web applications using HTML, CSS, and JavaScript
- Improved UI/UX and resolved frontend logic issues, enhancing application performance and usability
- Integrated third-party APIs to enhance application functionality
- Focused on clean UI design and better user experience

PROJECTS

MyCommunity Connect | Flutter, Firebase, MongoDB

2025

- Developed a mobile application to manage apartment community activities and services
- Implemented features such as resident registration, community help posts, contact directory, chatbot assistance, and emergency ambulance support
- Integrated MongoDB for storing user and community data

OSINET Portal | HTML, CSS, JavaScript, Python

2025

- Developed a web-based OSINT portal to collect and analyze publicly available information
- Designed modules for structured data input, analysis, and reporting
- Implemented secure data handling practices and optimized information retrieval mechanisms

AI Resume Analyzer | Python, Machine Learning, NLP

2026

- Developed an AI-based system to analyze resumes and identify missing skills based on job descriptions
- Improved resume-job matching accuracy using NLP-based keyword extraction techniques
- Implemented functionality to suggest improvements and enhance resumes using AI
- Designed the system to assist users in improving resume quality for better job opportunities

TECHNICAL SKILLS

Languages: Java, Python, SQL, JavaScript, HTML, CSS

Frameworks & Technologies: Flutter, Firebase, REST APIs, Web Development, Machine Learning (Basics)

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Problem Solving

Developer Tools: Git, GitHub, VS Code, Android Studio, Pycharm, Antigravity, n8n (Basics)

EDUCATION

Kalasalingam Academy of Research and Education

Srivilliputhur, Tamil Nadu

Bachelor of Technology in Computer Science and Engineering (AIML), CGPA: 9.25/10

Aug. 2023 – Present

Narayana Junior College

Nellore, Andhra Pradesh

Board of Intermediate Education (MPC - Maths, Physics, Chemistry), Percentage: 97.3%

Jun. 2021 – Mar. 2023

Ratnam Model School

Nellore, Andhra Pradesh

Board of Secondary Education, Grade: 10/10

Jun. 2020 – Mar. 2021
